

MASSAGE TREATMENTS

At Atlantis Spa, our therapists are equipped with a wide range of massage techniques they can use. So rather than simply suggesting a particular treatment, we encourage you to come in and tell us how you are feeling that day. Armed with that knowledge we will customize a massage to fit your specific needs by using each technique where it is most appropriate. You decide the length of your session, and we will do the rest. Most sessions will incorporate Swedish (light and relaxing pressure), Deep Tissue (medium to firm pressure, but always at your comfort level), Natural Stone (using heated stones) and Bamboo Fusion. If you know what you want, you are welcome to request it when making your appointment so that we may book you with the appropriate therapist. Pregnancy massage is available.
